SPECIFICATION SHEET

WARCO Compound No.: 72-E-1337 (White)

Polymer: NEOPRENE

Temperature Range: -40 TO +220°F

<u>Physical Properties</u>	<u>Typical</u>
Hardness, Shore A	72 ± 5
Tensile, PSI	1000
Elongation, %	450

All of the ingredients have been listed as approved by FDA in 21 CFR 177.2600 for repeated food exposure.

Because WARCO cannot anticipate or control the many different conditions under which this information and/or product may be used, it does not guarantee the applicability or the accuracy of this information or the suitability of its products in any given situation. Users of WARCO products should make their own tests to determine the suitability of each such product for their particular purposes. The data listed herein falls within the normal range of product properties but they should not be used to establish specification limits or used alone as the basis of design.
